

St. Matthew's CE Blackmoor Primary School

HARVEST OCTOBER 2020

We are having an alternative Harvest this year. We would like to set you a challenge!

Can you build a Scarecrow and display it in your front garden or window; or someone else's garden, or the school grounds?

The scarecrow needs to be a Biblical character for example 'Jonah and the whale'. If you live in a close you may want to join together and do characters from a Bible story.

The school will put together a trail map for you to purchase at the bargain price of £2. **All money collected will go to the foodbank.**

This is a project that all families can enjoy by making, displaying or taking part in the trail.

Please complete the attached form to enter a scarecrow or volunteer a space.

We would like the trail to be ready for October 24th which is the beginning of half term.

We would like as many families as possible to participate to make this a special Harvest for everyone.

This replaces our usual Harvest celebrations that we would gather together for, but this should be enjoyable for everyone in the community and a lovely reason to walk or cycle locally. Many families will benefit from the money raised.

Thank you in anticipation from everyone at St. Matthew's CE Primary
