

Clean Air Day poster competition

On 8 October 2020, Clean Air Day, we would like everyone to give their cars a rest!

Did you know that in 2018 on the day of the London Marathon, when the streets were closed to cars, the air quality in the city improved by 89%. So, let's try and reduce the pollution caused by traffic this Clean Air Day and leave as many cars as possible at home.

We would like your help to remind parents about Clean Air Day!

We would like you to complete our poster and draw a picture showing how you would like to come to school without the car. It could show how you'll run, scoot, skateboard or travel actively in any way you like. You aren't allowed to use any means of transport that uses a petrol or diesel engine and pollutes the air. How about inventing a new sustainable, clean air travel machine?

There will be great prizes for the best posters and the winning designs will be displayed on the My Journey websites.

The closing date for the competition is 30 October 2020. Post your entries to Jean MacGrory, Travel Planning, Strategic Transport, 2nd Floor, Ell Court West, Hampshire County Council, Winchester SO23 8UD, [Courier Route: 6/831](mailto:jean.macgrory1@hants.gov.uk) or email them to jean.macgrory1@hants.gov.uk

On Clean Air Day we should give our car a rest and come to school in a fun way that doesn't pollute our air!

Draw a picture of yourself travelling actively, or in a new vehicle, that you've invented, that doesn't need petrol or diesel to run.

Give your car the day off

Today I will get to school like this...
