

HOME LEARNING

In the event that your child cannot attend school during this term due to COVID19 please see below the way we are supporting home learning.

We have made this as simple as possible for everyone to use. We have used our experience during Lockdown to build on and hope that all parents will have sufficient information and resources to support home learning.

Remote Learning Principles for St. Matthew's CE Blackmoor

All classes will:

- Have weekly overview available to be online or printed off for pupils awaiting a test or isolating.
- The weekly overview will be accessible for parents to use; this means it has links to resources including online lessons, printable sheets and it must be based on what the children in school are being taught.
- There are opportunities for parents to send work in via email or via the blog for feedback.
- Where appropriate children at home could have 'zoom' lessons. For example if whole class were isolating.
- There will be lessons for the core subjects and other areas that children in school will be working on.
- Daily work for phonics, handwriting, spelling, times tables will be clearly organised.
- Mathletics and TT Rockstars will be updated weekly to ensure activities are linked to class lessons.
- Bitesize and Oak Academy are used for online teaching videos; these are linked to the week's learning.
- We will be using the school website as our platform as parents are familiar with this.
- Use working from home page on the website so all the work is together.

Home learning procedures

Children at home awaiting a test and result

- Look on class page- home learning and follow plans for the two days.
- There should be activities that will reinforce current learning and new ideas to try.

Children isolating for 10- 14 days

- Follow planning on website and use blog to post work for feedback.
- Send work via email if unable to use blog.
- Keep evidence of other work to bring to school after isolation period.
- Use video links for lessons from Oak Academy or Bitesize to support learning- these links should be here.
- Email school for pack of work if no internet provision at home.

Whole Class at home

- Follow planning on website as above
- If the teacher is able they may facilitate zoom lessons from home to keep in touch with the children.
- Text messages or website communication will update you on planning.
- Keep evidence of work completed in addition to work posted on blog or emailed.

We hope you find this accessible. All work will be on your child's class homepage from this week.
