Headteacher: Mrs Rosalind Stamper

8 October 2025

Dear Parent/Guardian

Thank you to everyone who completed the EYFS Questionnaire. The feedback was very positive as stated below:

- Everyone seemed to be happy with the paperwork sent to them and one said it was exactly the right amount.
- Everyone liked the amount of time that the children had to visit the classroom before they started school.
- Everyone thought that they had enough opportunities to talk to staff before they started school and one parent mentioned that staff were very helpful.
- Most parents thought that the staggered start was very helpful although one found the afternoons trickier and one said it was great for the children but not so great for them. One parent also mentioned that all children had been to pre-school so they thought that their child could start straight away.
- No-one thought that they needed to know anything else before their child started school.

The extra information that they would recommend for new parents:

- More information about the pool.
- A list of names so that they could talk about friends.
- More information about what was going to be done in the first few days of school.

We will endeavour to use your feedback to make next year's intake of new starters transition to primary school seamless.

Kind regards

Mrs West (Acorns Class Teacher)
